Source: OPTN/SRTR Data as of May 1, 2006.

Notes:

(-) = None in category.

(1) ORPD: Organs Recovered Per Donor of any organ; (2) OTPD: Organs Transplanted Per Donor of any organ. Organs divided into segments (liver, lung, pancreas, intestine) are counted only once for that organ.

Includes organs recovered for transplant but not transplanted, as well as organs transplanted.

Donors are divided into three mutually exclusive and complete categories. All donors meeting the criteria for Expanded Criteria Donors for Kidney are classified as ECD, regardless of whether the kidneys were allocated under the ECD system. Non-ECD donors are classified as either DCD or SCD(donors who qualify as both ECD and DCD are classified as ECD).
