LIST OF FIGURES

Chapter I: Trends in Organ Donation and Transplantation in the United States, 1995-2005

I-1 Change in Numbers of Patients on Waiting Lists, 2004-2005
I-2 Age Distribution on Waiting Lists, All Organs, 1996-2005
I-3 Kidney Transplantation at a Glance
I-4 Pancreas Transplantation Alone (PTA) at a Glance
I-5 Pancreas After Kidney (PAK) Transplantation at a Glance
I-6 Simultaneous Pancreas-Kidney (SPK) Transplantation at a Glance
I-7 Liver Transplantation at a Glance
I-8 Intestine Transplantation at a Glance
I-9 Heart Transplantation at a Glance
I-10 Lung Transplantation at a Glance

Chapter II: Organ Donation and Utilization in the United States, 1996-2005

II-1 Month-by-Month Increases in Number of Organ Donors
II-2 Deceased Donor Population, by Donor Type and Year, 1996-2005
II-3 2005 Conversion Rate and Estimated Conversion Rate if Conversion Rate was 75% for All Large Hospitals
II-4 Organs Transplanted per SCD, by DSA, 2003
II-5 Organs Transplanted per Donor Pre- and Post-Donation Collaborative (All Donors)
II-6 Organs Transplanted per Month with 12 Month Moving Average
II-7 Donor Registries Across United the States

Chapter III: Pediatric Transplantation in the United States, 1996-2005

III-1 Pediatric Transplant Waiting List (Active and Inactive) at Year-End for all Organs, by Age, 1996-2005
III-2 Distribution of Active Pediatric Waiting List Candidates at Year-End, by Organ, 1996-2005
III-3 Pediatric Patient Survival 36 Months After Kidney Transplantationversus Dialysis
III-4 Expected Remaining Lifetimes (Years) of Dialysis and Transplant Patients with ESRD, by Age
III-5 Median Time to Transplant for New Kidney Transplant Waiting List Registrants, by Age, 1996-2005
III-6 Active Pediatric Kidney Patients on the Waiting List at Year-End, 1996-2005
III-7 Pediatric Kidney Transplant Recipients, by Donor Type, 1996-2005
III-8 Percentage Kidney/Liver Transplants among Deceased Donor Kidney Transplants to Pediatric Recipients, 1996-2005
III-9 Pediatric Transplant Recipients of Non-ECD Deceased Donor Kidneys, by Age, 1996-2005
III-10 Unadjusted 3-month, 1-year, 3-year, and 5-Year Graft Survival of Deceased Donor non-ECD Kidney Transplants, by Recipient Age
III-11 Unadjusted 3-month, 1-year, 3-year, and 5-Year Graft Survival of Living Donor Kidney Transplants, by Recipient Age
III-12 Immunosuppression Use for Maintenance of Pediatric Recipients with Kidney Transplants Prior to Discharge, 1996-2005
III-13 Immunosuppression Combinations for Maintenance for Pediatric Recipients with Kidney Transplants Prior to Discharge, 1996-2005
III-14 Immunosuppression Use for Induction for Pediatric Recipients with Kidney Transplants, 1996-2005
III-15 Reported Pediatric Liver Only (No Intestine) Waiting List Deaths and Annual Death Rates per 1,000 Patient-Years at Risk, 1996-2005
III-16 Pediatric Recipients of Deceased and Living Donor Liver Transplants, 1996-2005
III-17 Death Rates for Pediatric Recipients During First Year after Deceased Donor Liver Transplantation, 1996-2004
III-18 Immunosuppression Use for Maintenance of Pediatric Recipients with Liver Transplants Prior to Discharge, 1996-2005
III-19 Unadjusted One Year Patient Survival for Intestine Transplants, by Age, for 2003 and 2006
III-20 Unadjusted Five Year Patient Survival for Intestine Transplants, by Age, for 2003 and 2006
III-21 New Pediatric Heart Waiting List Registrants, Deaths on the Waiting List, and Transplants, 1996-2005
III-22 New Pediatric Registrants on the Heart Waiting List, by Age, 1996-2005
III-23 Unadjusted 1- and 5-Year Graft and Patient Survival of Heart Transplants by Recipient Age
III-24 Prevalence of Pediatric Recipients Living with a Functioning Transplant at End of Year, 1996-2004

III-25 Immunosuppression Use for Induction for Pediatric Recipients with Heart Transplants, 1996-2005
III-26 Immunosuppression Use for Maintenance of Pediatric Recipients with Heart Transplants Prior to Discharge, 1996-2005
III-27 Pediatric Patients Listed for Lung Transplant, Dying on the Waiting List, and Transplanted, 1996-2005
III-28 Unadjusted Graft Survival at 3 and 5 Years for Deceased Donor Lung Transplant Recipients, by Age
III-29 Immunosuppression Use for Induction for Pediatric Recipients with Lung Transplants, 1996-2005
III-30 Immunosuppression Use for Maintenance of Pediatric Recipients with Lung Transplants Prior to Discharge, 1996-2005
III-31 Ratio of Lung Waiting List Deaths to Transplants, Pediatric and Adult, 1996-2005

Chapter IV: Kidney and Pancreas Transplantation in the United States, 1996-2005
IV-1 Categories Within the Deceased Kidney Donor Pool: SCD, ECD, DCD
IV-2 Race of Active Kidney Waiting List Patients at Year-End, 1996-2005
IV-3 Delayed Graft Function Pre- and Post-ECD Policy Implementation
IV-4 Number of Combined Kidney Transplants, 1996-2005
IV-5 Unadjusted 1-Year, 3-Year, and 5-Year Kidney Graft Survival, by Donor Type, for Transplants Received 1999 2004
IV-6 Adjusted* Graft Survival for DCD and ECD Kidneys, 2000-2004
IV-7 Unadjusted 1-Year, 3-Year, and 5-Year Kidney Patient Survival, by Donor Type, for Transplants Received 1999-2004
IV-8 Prevalence of People Living with a Functioning Transplant at End of Year, 1996-2004
IV-9 Immunosuppression Agents Used for Induction in Kidney Transplantation, 1996-2005
IV-10 Median Survival Curves for Diabetic Kidney Transplant Candidates and Recipients, Age 25 and 55
IV-11 Distribution of QENLSB from Transplantation with Average SCD Kidney, by Candidate Age (Age=32 yrs)
IV-12 Induction Immunosuppression for SPK Recipients, 2005
IV-13 Unadjusted 1-Year, 3-Year, and 5-Year Pancreas Graft Survival by Transplant Type for Transplants Received 1999-2004
IV-14 Unadjusted One-Year Pancreas Graft Survival, by Year of Transplant, 1995-2004
IV-15 Unadjusted 1-Year, 3-Year, and 5-Year Patient Survival by Transplant Type for Transplants Received 1999-2004

Chapter V: Liver and Intestine Transplantation in the United States, 1996-2005
V-1 Number of Patients on the Liver Waiting List, Active at Year-End, 1996-2005
V-2 Age Distribution of Patients on the Liver Waiting List, Active at Year-End, 1996-2005
V-3 Percentage of Candidates on the Liver Waiting List with a Previous Transplant by Year, 1996-2005
V-4 Distribution of MELD/PELD Status Among Patients on the Liver Waiting List, at Year-End, 2002-2005
V-5 Number and Percentage of Split/Partial Transplant Recipients by Year, 1996-2005
V-6 Death Rates at One Year Following Transplantation by Year, 1996-2004
V-7 Death Rates at One Year Following Transplantation by Severity of Disease, 2004
V-8 Distribution of Reasons for Removal from the Liver Waiting List
V-9 Percentage of Transplant Recipients with MELD/PELD ≥15 by OPTN Region
V-10 Percentage of Transplant Recipients with MELD/PELD ≥15, by DSAs Performing Liver Transplants
V-11 Number of DSAs with at Least 90% of Transplants at MELD/PELD ≥15
V-12 Number of Liver Recipients by Type of Transplant and Year, 1996-2005
V-13 Average MELD at Deceased Donor Liver Transplant and Percentage of Living Donor Living Transplant, by OPTN Region
V-14 Relation of Donor to Recipient for Living Donor Liver Transplants by Year, 1996-2005
V-15 Distribution of Age Among Living Donor Transplants by Year, 1996-2005
V-16 Unadjusted Patient and Graft Survival of Liver Recipients, by Deceased and Living Donor
V-17 Adjusted Patient Survival of Living Donor Liver Recipients at Various Time Intervals, by Age Group
V-18 Adjusted Patient Survival of Deceased Donor Liver Recipients at Various Time Intervals, by Age Group
V-19 Adjusted Patient Survival of Deceased Donor Liver Recipients at Various Time Intervals, by Diagnosis
V-20 Adjusted Patient Survival of Living Donor Liver Recipients at Various Time Intervals, by Diagnosis
V-21 Unadjusted Patient Survival of Deceased Donor Liver Recipients at Various Time Intervals, by Severity of Disease
V-22 Number and Percentage of DCD Liver Transplants, by Year, 1996-2005
V-23 Patient Survival of DCD Donors and DBD Donors at One Year Following Liver Transplantation, 2003-2004
V-24 Graft Survival of DCD Donors and DBD Donors at One Year Following Liver Transplantation, 2003-2004

V-25 Recipients of Liver and Simultaneous Liver-Kidney Transplants by Year, 1996-2005
V-26 Distribution of Candidates Listed for Intestine Versus Liver-Intestine Transplant, by Age Group and Year, 1991-2005
V-27 Age Distribution of Candidates Listed for Intestine Versus Liver-Intestine Transplant, by Year, 1991-2005
V-28 Death Rates of Candidates Listed for an Intestine or Liver-Intestine Transplant, by Year, 2000-2006
V-29 Death Rates on the Waiting List for Candidates Listed for an Intestine Transplant, by Age Group and Year, 2000-2006
V-30 Percentage of Intestines Procured and Transplanted, by OPTN Region, 2001-2005
V-31 Number of Intestine and Liver-Intestine Transplants Performed, by Age Group and Year, 1991-2005
V-32 Distribution of Intestine and Liver-Intestine Transplants, by Age Group and Year, 1991-2005
V-33 Adjusted Patient Survival Following Intestine Transplantation, 1991-2005
V-34 Adjusted Graft Survival Following Intestine Transplantation, 1991-2005

Chapter VI: Heart and Lung Transplantation in the United States, 1996-2005

VI-1 Primary Diagnoses of Patients Active on the Heart Waiting List at Year-End, 1996-2005
VI-2 Age Distribution of Patients Active on the Heart Waiting List at Year-End, 1996-2005
VI-3 Race of Patients Active on the Heart Waiting List at Year-End, 1996-2005
VI-4 Status of Patients Active on the Heart Waiting List at Year-End, 2000-2005
VI-5 Annual Death Rate of Patients Awaiting Heart Transplantation, per 1,000 Patient-Years at Risk, 1996-2005
VI-6 Annual Death Rates per 1,000 Patient-Years on the Heart Waiting List by Status, 2000-2005
VI-7 Number of Heart Transplants and Incidence of Transplant per Million Population, 1996-2005
VI-8 Age of Heart Transplant Recipients, 1996-2005
VI-9 Race of Heart Transplant Recipients, 1996-2005
VI-10 Annual Death Rate per 1,000 Patient-Years at Risk, for Recipients during First Year after Heart Transplantation, 1996-2004
VI-11 Annual Death Rate per 1,000 Patient-Years at Risk, for Recipients during First Year after Heart Transplantation, by Race, 1996-2004
VI-12 Adjusted* Heart Recipient Survival by Race, 1996-2004
VI-13 Adjusted* Heart Recipient Survival, by Diagnosis, 1996-2004
VI-14 Annual Death Rate per 1,000 Patient-Years at Risk, during First Year After Heart Transplantation, by Status, 2000-2004
VI-15 TSAM Results Comparing Heart Transplants from the Four Allocation Policies by Status, 2002
VI-16 TSAM Heart Transplant Results From the Four Allocation Policies by Zone, 2002
VI-17 Total Deaths Predicted by TSAM, by Allocation Policy, 2002
VI-18 ActiveVersus Inactive Lung Waiting List Patients at Year-End, 1996-2005
VI-19 Age Distribution of Active Lung Waiting List at Year-End, 1996-2005
VI-20 Primary Diagnoses of Patients Active on the Lung Waiting List, 1996-2005
VI-21 Time to Transplant for Lung Registrants, 25th Percentile, 1996-2005
VI-22 Annual Death Rate of Patients on the Lung Waiting list, per 1,000 Patient-Years at Risk, 1996-2005
VI-23 Number of Deceased Donor Lung Transplants, 1996-2005
VI-24 Age Distribution of Deceased Donor Lung Transplant Recipients, 1996-2005
VI-25 Primary Diagnosis of Deceased Donor Lung Transplant Recipients, 1996-2005
VI-26 Adjusted* Short- and Long-Term Deceased Donor Lung Patient Survival, by Year of Transplant,1993-2004
VI-27 Annual Death Rates per 1,000 Patient-Years at Risk, by Age Group, 1996-2004
VI-28 Annual Death Rates during First Year after Deceased Donor Lung Transplant, by Primary Diagnosis, 1996-2004
VI-29 Number of Heart-Lung Patients Active on Waiting List at Year-End and Number of Heart-Lung Transplants, 1996-2005

Chapter VII: Developing Organ Offer and Acceptance Measures: When "Good" Organs Are Turned Down

VII-1 Observed Versus Expected Accepted Kidney Offers
VII-2 Observed Versus Expected Accepted Kidneys
VII-3 Kidney Adjusted Odds Ratios at 244 Transplant Programs: Organ vs. Offer Acceptance Models (Log Scale)

Chapter VIII: Geographic Variability in Access to Kidney Transplantation in the United States, 1996-2005

VIII-1 Relative Rate* of Wait-Listing Among ESRD Patients by State, 1996-2005
VIII-2 Average Five-Year Change in Wait-Listing Rate During 1996-2005 by State
VIII-3 Living Donor Transplantation Rate* Among ESRD Patients, 1996-2005
VIII-4 Average Five-Year Change in Living Donor Transplant Rates During 1996-2005
VIII-5 Deceased Donor Transplantation Rate* Among Kidney Waiting List Patients by State, 1996-2005
VIII-6 Average Five-Year Change in Deceased Donor Transplant Rate During 1996-2005
VIII-7 Wait-Listing Rate* Among ESRD Patients and Deceased Donor Transplantation Rate** Among Waiting List Patients by State, 1996-2005
VIII-8 Correlation of Wait-Listing Rates Among ESRD Patients and Deceased Donor Transplantation Rates Among Waiting List Patients by State, 1996-2005
VIII-9 Relative Rate* of Receiving a Kidney Transplant Among ESRD Patients by State, 1996-2005
VIII-10 Percentiles of Adjusted Relative Access Rates Compared to the National Average by Access Measure, 1996-2005
VIII-11 Percentiles of Adjusted Relative Access Rates Compared to the National Average, Without Adjusting for Race, Ethnicity, or Insurance Status, 1996-2005

Chapter IX: Repeat Transplantation

IX-1 Percentage of All Registrants Listed for a Second, Third, or Fourth Transplant at End of 2005, by Organ Type
IX-2 Percentage of Registrants in Each Age Group Listed for a Repeat Transplant at End of 2005, by Organ Type and Candidate Age
IX-3 Percentage of All New Registrants Added to the Waiting List for a Repeat Transplant, by Organ Type,1996-2005
IX-4 Number of Repeat Transplants, by Organ, 1996-2005*
IX-5 Percentage of All New Registrants Added to the Waiting List for Repeat Kidney Transplantation and Percentage on Waiting List at Year-End, 1996-2005
IX-6 Percentage of All New Registrants Added to the Waiting List for Repeat Kidney Transplantation, by Age, 1996-2005
IX-7 Percentage of Repeat Kidney Transplants, by Recipient Age, 1996-2005
IX-8 Deceased Donor Kidney Transplants in 2005, by Time on Waiting List
IX-9 Deceased Donor Kidney Transplants in 2005, by Peak PRA at Listing
IX-10 Time from First Kidney Transplant to Repeat Transplant, for Retransplanted Recipients in 2005
IX-11 Unadjusted Living Donor (LD) and Deceased Donor (DD) Graft Survival for First and Second Kidney Transplants, 2000-2005
IX-12 Percentage of All New Registrants Added to the Waiting List for Repeat Liver Transplantation and Percentage on Waiting List at Year-End, 1996-2005
IX-13 Percentage of All New Registrants Added to the Waiting List for Repeat Liver Transplantation, by Recipient Age, 1996-2005
IX-14 Percentage of Repeat Liver Transplants, by Recipient Age, 1996-2005
IX-15 Causes of Primary Graft Failure for Liver Transplant Recipients Retransplanted Less Than One Year Post Primary Transplant
IX-16 Causes of Primary Graft Failure for Liver Transplant Recipients Retransplanted More Than One Year Post Primary Transplant
IX-17 Time from First Liver Transplant to Repeat Transplantation for Retransplanted Recipients in 2005
IX-18 Repeat Liver Transplants in 2005, by Status or MELD/PELD Score at Transplantation
IX-19 Unadjusted Deceased Donor Graft Survival for First and Second Liver Transplants, 2000-2005
IX-20 Percentage of All New Registrants Added to the Waiting List for Repeat Heart Transplant and Percentage on Waiting List at Year-End, 1996-2005
IX-21 Percentage of All New Registrants Added to the Waiting List for a Repeat Heart Transplant, by Age, 1996-2005
IX-22 Percentage of Repeat Heart Transplants, by Recipient Age, 1996-2005
IX-23 Unadjusted Graft Survival for First and Second Heart Transplants, 2000-2005
IX-24 Percentage of All New Registrants Added to the Waiting List for Repeat Lung Transplantation and Percentage on Waiting List at Year-End, 1996-2005
IX-25 Percentage of All New Registrants Added to the Waiting List for Repeat Lung Transplantation, by Age, 1996-2005
IX-26 Percentage of Repeat Lung Transplants, by Recipient Age, 1996-2005
IX-27 Unadjusted Deceased Donor Graft Survival for First and Second Lung Transplants, 2000 - 2005
