Notes:
(-) = None in category.
This table examines a point-prevalent cohort of patients alive and on the waiting list on January 1, and examines the patient's waitlist status or removal reason at the time points (specified) after that point-prevalent date (January 1). These tables take the point of view of a patient who is currently registered on the waiting list, regardless of how long they have been on the list, and look prospectively at events and status changes to follow.
