Notes:
Multi-organ transplants are excluded except where specified. Living donor transplants excluded unless explicitly listed. Heterotopic heart and liver transplants excluded. Graft survival follows individual transplants until graft failure. Patient survival follows patients from first transplant of this type until death.

Notes:
Multi-organ transplants are excluded except where specified. Living donor transplants excluded unless explicitly listed. Heterotopic heart and liver transplants excluded. Counts for graft and patient survival are different because a patient may have more than one transplant for a type of organ.
